

## Message from Principal Amparito Davila

Congratulations to our Honor Students for the school year 2017-18. The end of another school year is upon us and you have accomplished your goal of becoming an honor student. Although it was a difficult year, you were resilient; you reached your goals no matter what the conditions were. Earning this Academic Honor is evidence of your commitment to excellence. To be an honor student is a major milestone in an academic year, especially this year after Hurricane Maria. Reaching this goal proves to you that you have a commitment to yourself, your parents and your future. Your dedication to your schoolwork will open the doors to college. It takes a great deal of talent, effort, and determination to reach ones' goals and dreams. You will be successful in all you do, always believing in yourself and staying focused.

You should indeed be proud of your work! Share this moment with your parents/guardians. I know that they too are very proud of your achievement. Remember this is just the beginning of a new year to come, that will open the doors to your future.

"Excellence  
is not being  
the best; it is  
doing your  
best."

**Time to make important decisions:**

High school students if you need to upgrade any of your courses this would be a good time to consider that possibility. Don't wait when it's too late. Make that decision it can make a difference in your GPA for College. Talk it over with your parents.

Each new school year is one step closer to college and your future. Make a list of your new goals, and how to achieve them. I am more than sure that College is your main goal.

Happy Summer
